

Explore Engineering

October 10, 2002

9:00am-1:00pm

Who is invited?

Middle and High School students from the Detroit area and kids/guests of Conference Attendees who are this age.

What will the students be doing?

Leaps & Bounds

Students will find out how technology has improved from the past to today.

Engineering Disciplines

Students will rotate between booths demonstrating the different types of engineering that are practiced.

Imagination Fair

Students can bring a presentation poster of their own invention to the Conference to be displayed. Prizes will be awarded and all inventions have the chance to be registered to be submitted for a patent. Students must pre-register for this event and posters will have pre-existing requirements.

Lunch

A boxed lunch will be provided to the students during the events.
